Wartungsdatenbank

The maintenance database let you create, show and edit alerts and premonitions, informing you about forthcoming and/or lost vehicle maintenances.

Summary

The maintenance database let you create, show and edit alerts and premonitions, informing you about forthcoming and/or lost vehicle maintenances.

For this purpose, you can set, for each vehicle, several maintenance intervals and also any required items/services can be stored.

The overview let you filter the shown alerts and premonitions by vehicle, date (date range) and maintenance profile.
