

do_customdialog_data.php

Creating a form entry for a specific form definition. Every form belongs to a vehicle, a driver and a time, when the form is valid and this has to be given when the form is created.

Description

POST `do_customdialog_data.php?company=COMPANY_RTIKEY&vehicle=VEHICLE_RTIKEY&driver=DRIVER_HEXKEY&form=formname&ts=timestamp&val1=field 1-value&val2=field 2-value&valX=field X-value`

Parameter

Parameter	Description	Type	Hint	Mandatory
company	RTI Firmenschlüssel	string	comany RTI key is needed	yes
vehicle	RTI Fahrzeugschlüssel	string	vehicle RTI key is needed	yes
driver	Fahrerschlüssel	string		yes
form	Formularname	string		yes
ts	Timestamp	string	Time of the form is set. The following format is needed: YYYYMMDDhhmmss	yes
valX	form entry field X	integer	Each form definition has up to 10 field which can be send. For every form you have to observe the form structure, because of the types and order of each entry. Fields with pictures or signatures can not be set by this function and you let them free, also if they are mandatory.	yes, if mandatory field, if not it is optional

Field type formats

- date: YYYYMMDD
- time: hhmmss
- integer: 0123456789
- float: 123.4567890
- text 10: text with the length of 10 characters
- text 30: text with the length of 30 characters
- text 500: text with the length of 500 characters
- options field: text, which is **one** of the defined options of the form field
- yes/ no-field: yes = 1, no = 0
- pictures/ signatures/ forms: you send no value, this can not be set by this RTI function

Return

The standard return is a "**OK**"-message, which marks the succes of the function. If a mandatory parameter is missing or values have a wrong format the retrurn message is "**ERROR:Description**".

Possible error Messages and their meaning:

"PARAMETER_TS_NOT_GIVEN" - no timestamp passed

"PARAMETER_DRIVER_NOT_GIVEN" - no driver key passed

"PARAMETER_FORM_NOT_GIVEN" - no form name passed

"PARAMETER_TS_INVALID" - timestamp is no correct date/time value

"PARAMETER_DRIVER_HEXKEY_INVALID" - driver key is not correct or is not existing

"FORM_NOT_FOUND" - no form found with this name

"WRONG_FORMATTED_FIELDS(Feldnummern)" - list of fields where the values are wrong formatted
